

### Analysis of Speed Indicator Device (SID) data for December 2023 & January 2024

The SID was located on Bluntisham Road near the “Colne” sign, facing towards Bluntisham, for 52 days between November 30<sup>th</sup> 2023 & January 21<sup>st</sup> 2024. *(The SID collects data not only from approaching vehicles but also from those departing in the opposite direction; in the case of departing vehicles the speed is not displayed to the driver.)*

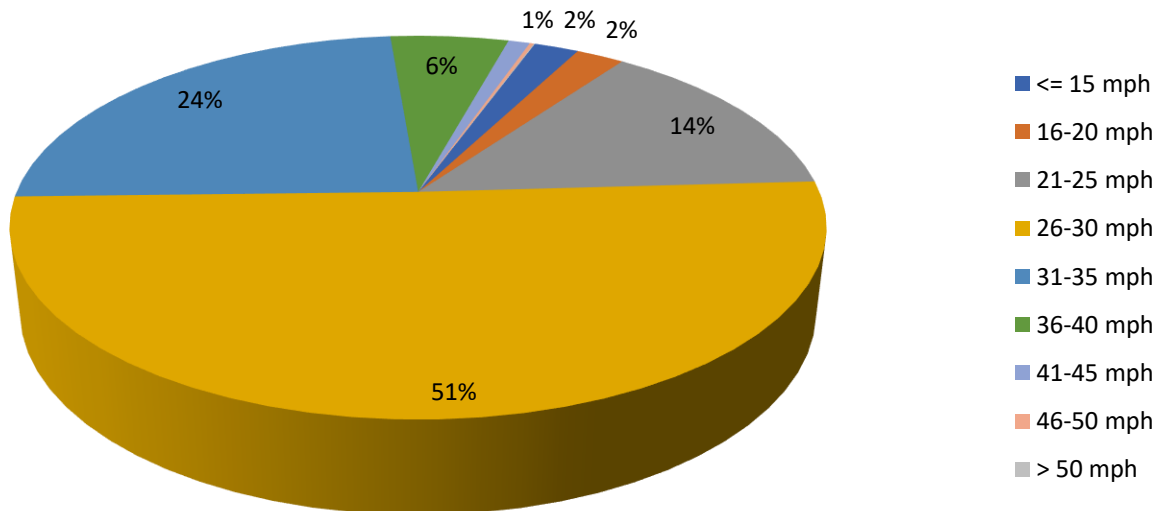

Over the 52 day period, 31% of all vehicles were recorded exceeding the 30 mph speed limit. The average speed was 29 mph with 15% of vehicles travelling at over 32 mph. These figures are a significant improvement on those recorded at the same location in January to March 2023 when almost 40% of vehicles exceeded the limit.

#### Vehicles approaching from Bluntisham

31% of vehicles were recorded as travelling in excess of the 30 mph limit with almost one in six (15%) recorded travelling at a speed greater than 33 mph. The average speed was 29 mph.

These figures represent a significant improvement on those from January to March 2023 at the same location when 36% of vehicles were recorded as exceeding the limit.

The diagram, below, shows the distribution of vehicle speeds arriving from Bluntisham:

### Vehicles departing towards Bluntisham

*(The speed of vehicles travelling in this direction is not displayed to the driver and so the presence of the SID is likely to be less of a deterrent.)*

32% of all vehicles were travelling in excess of the 30 mph limit with almost one in six exceeding 33 mph. The average speed was 28 mph.

These figures show a significant improvement over those from January to March 2023 at the same location.

This diagram shows the distribution of vehicle speeds departing towards Bluntisham:
