

INSTALLATION OF A MODULAR PUMP TRACK ON THE COLNE VILLAGE PLAYING FIELD

Colne Parish Council have set up a Crowdfunding page to raise funds for the installation of the track, at a cost of £36,000. The Council would like to have the track installed ready for Summer 2026.

The support we have received from the Public Consultation has been overwhelming, to encourage physical activity and sporting prowess among the youngsters in the area.

This track will provide a dedicated space for children and young people to enjoy physical, wheel-based activities such as BMX biking, scootering, rollerblading, and skateboarding. This initiative responds directly to the feedback received from local families who highlighted a lack of recreational facilities for older children and teenagers in the village.

The playing field, gifted to the village in 1957, is a well-used and valued community space. It is managed by the Parish Council, who remain committed to maintaining and enhancing the park's appeal for future generations. The proposed pump track will complement existing facilities, creating a multi-generational space that encourages fitness, community interaction, and positive outdoor engagement. Ultimately, this project will help address the recreational needs of local young people, reduce reliance on cars for access to distant facilities and build a stronger sense of community through shared use of the village's green space.

Local children and young people also welcomed the project, with those from nearby villages saying they would travel to Colne to use the track. Elected representatives have voiced their support. Our local MP said, "I recognise how important infrastructure like this is in encouraging physical activity among children and teenagers." A District Councillor commented, "Facilities like this are a real asset to communities, promoting health and wellbeing."

Every £1 given will help towards the end total, please be generous and support our project by clicking on this link : <https://www.crowdfunder.co.uk/p/installation-of-a-modular-pump-track>

We need 25 supporters to obtain match funding for the project.

Please forward the link to friends, family and colleagues
TOGETHER WE CAN REACH OUR GOAL

Thank you
